

AIRSTREAM® Atlas

2024 TOURING COACHES

About Atlas

With its roomy interior, expansive bathroom, and full slate of amenities, the Atlas Touring Coach is the crown jewel of our luxurious line of motorized touring coaches. It's a Class B RV built on the legendary Mercedes-Benz® Sprinter cab chassis and inspired by our trailblazing Airstream Interstate series. But Atlas is no ordinary Class B motorhome: With its wide body, power slide-out, and understated automotive styling from grill to bumper, we affectionately call it a Class B+. A new standard has arrived for those who believe a well-traveled life begins with the very best.

Atlas is designed to give travelers plenty of room to start with — and then expand to make things even roomier and more luxurious via a power slide-out. The fully appointed interior features a wide galley, residential-style bathroom, and a plush lounge that converts to a bed with the push of a button. Solid-surface countertops, seemingly endless amounts of overhead storage, and touchscreen interfaces round out the Atlas experience.

On the road, the Atlas provides a driving experience par excellence. A 2.0L turbo charged high output 4-cylinder diesel engine delivers power and performance under the hood, and we select every available safety and comfort feature Mercedes-Benz offers. Plus, add the optional E1 Package for more power, simplicity, and off-grid capability. Expansive, exceptional, and packed with features: There's simply no other travel experience like Atlas.

Floor Plan

Atlas is the first Airstream motorhome to include a power slide-out, and we've taken care to do it right. On the road, the slide-out is retracted and fits seamlessly with the hand-crafted automotive body style. At the campground, it extends with the touch of a button on the multiplex control panel. Once extended, you have more room to relax on the couch or pull down the Murphy bed to turn in for the night.

A spacious bathroom spans the entire rear of the motorhome. Behind the sliding pocket door is a residential-style space with a stunning shower, a closet and vanity, and a toilet. Enjoy continuous hot water, Kohler® faucets and fixtures, and special touches like a teak shower inlay and LED accent lighting.

Exterior Features

With its wide stance and hand-crafted automotive styling, Atlas is a time-tested work of Airstream craftsmanship. An extensive paint and bodywork process is complemented by Triple Nickel Chrome Finished wheels for sleek automotive styling. Air ride suspension delivers an exceptionally smooth driving experience while a full slate of sensors, cameras, and drive assist features provide best-in-class safety and awareness. Ample external storage is cleverly hidden behind locking body panels and a power entry step conveniently retracts out of sight. At the campsite, the powered armless awning creates a wide outdoor seating area with ample LED lighting incorporated into the patio and undercarriage. Add the optional E1 Package for a simplified single-fuel-source heating and comfort system for more freedom and off-grid camping ability than ever before.

1 The powered step automatically extends and retracts when the door opens.

2 A powered, armless awning creates a wide exterior seating area.

3 Stay connected with a Starlink High Performance In-Motion system that comes standard.

4 Air Ride Suspension delivers an exceptionally smooth ride with less road noise.

5 Safety sensors and cameras provide 360-degree awareness and peace of mind.

6 Equip Atlas with even more power and off-grid capability with the optional E1 Package.

 ** Typical tow capacity will vary and is dependent upon build spec and intended vehicle loading with people, cargo, and fluids.
 *** New Vehicle Limited Warranty. Individual components may vary. See Owners Manual for specific warranty coverage and information.
 **** Weights are approximate. See Vehicle Sticker for specific vehicle information.
 ***** Starlink service plan required.

Why You'll Love It

Featuring the only slide-out in Airstream's fleet, Atlas's interior space expands at the push of a button, revealing a cleverly concealed Murphy Bed when it's time to catch some rest.

Marvel at the residential-style bathroom that spans the entire rear of the coach, complete with a teak-inlaid shower, wide sink counter, and toilet.

Relax with a premium audio system and flat screen television that lowers into a concealed position when not in use.

Fifteen coats of cut-and-buff paint and finishing work completes Atlas's sleek automotive exterior styling.

How It's Made

Each Mercedes-Benz cab chassis arrives in Jackson Center fully loaded with safety and security features and one of the most powerful and dependable engines under the hood. Our expert craftspeople hand-build the exterior walls and roof in-house while undercarriage features like generators, holding tanks, and batteries are installed. Standard seats are removed and re-upholstered with plush Ultraleather, while the interior is outfitted with electrical wiring harnesses, plumbing, gas lines, and comfort systems. We handcraft every cabinet and storage locker in our woodshop, which are then installed along with the shower, seating, and galley appliances. Extensive paint and fiberglass bodywork completes the exterior. And like every Airstream product, Atlas is put through an extensive water check to ensure there are no leaks before quality inspection teams test every component, system, and function before it goes out the door to a customer.

[Schedule a factory tour](#)

1 Interiors are outfitted with electrical, plumbing, and gas lines.

2 Seating is upholstered in-house with Ultraleather fabric.

3 Cabinetry and furniture is handcrafted and expertly installed.

4 Every coach is put through a water check to ensure it is watertight.
