About
Interstate 24GL

Whether you're heading to the beach house or tailgating at the big game, the Interstate 24GL Touring Coach elevates the whole experience. You and your guests will be wowed by the conveniences, amenities, and quality throughout this luxury coach. Settle in and enjoy every comfort you can dream of during your time on the road. Park at your destination and relax in style, surrounded by the best-in-class features.

With belted seating positions for up to nine passengers, the Interstate 24GL is made for riding along with friends and family. We load up the Interstate 24GL with every available safety and performance feature offered by Mercedes-Benz® – and we include them as standard, not upgrade options. With an Interstate 24GL, you're traveling in the very best of safety, performance, interior design, comfort, and efficiency every time you hit the road.

Once you arrive at your destination, conveniences like a full kitchen, an onboard bathroom, charging stations, and two smart flatscreen TVs let you enjoy your time in comfort and style. Prepare snacks and drinks on solid surface countertops in the galley. Store accessories in the European-style curved cabinetry. Relax on plush, easy-to-clean Ultraleather® seating surfaces. No matter where you turn, the Interstate 24GL is ready to impress.

Floor Plan

The Interstate 24GL has belted seating positions for nine passengers. Front captain's chairs swivel to face a central table for eating, gathering, or working from the road. A central galley features a single-burner induction cooktop and deep sink, while across the aisle a wet bath makes for an efficient use of space.

The rear of the Interstate 24GL is anchored by a wide seating area for up to five people but converts at the push of a button to a spacious sleeping area. Overhead lockers provide ample space to store dishware, food, bedding, and everything you need to make your journey complete. Behind the seating, rear doors swing open to reveal more storage and a clever table system that's perfect for outdoor entertaining.

Exterior
Features

Built on the powerful performance of the legendary Mercedes-Benz Sprinter van chassis, the Interstate 24GL is packed with exterior features that prioritize entertaining, traveling, and enjoying the outdoors. The sliding door automatically opens, and a powered step extends for easy entrance. Premium Air Ride Suspension provides the smoothest ride available, while the new standard Advanced Power System and roof-mounted solar panels ensure you have the power you need for the road ahead.

1 Solar panels on the roof harvest the free, abundant power of the sun.

2 The powered awning extends and retracts at the push of a button.

3 The standard Advanced Power Package combines a powerful battery system with a convenient single-fuel-source heating and hot water system.

4 Air Ride Suspension handles bumps in the road, changes in elevation, and wind resistance for the smoothest ride possible.

5 Safety sensors and cameras positioned around the exterior of the coach give you comprehensive situational awareness.

6 Mercedes-Benz performance under the hood is anchored by a powerful and efficient diesel engine.

Specifications

*** New Vehicle Limited Warranty. Individual components may vary. See Owners Manual for specific warranty coverage and information.
**** Weights are approximate. See Vehicle Sticker for specific vehicle information.

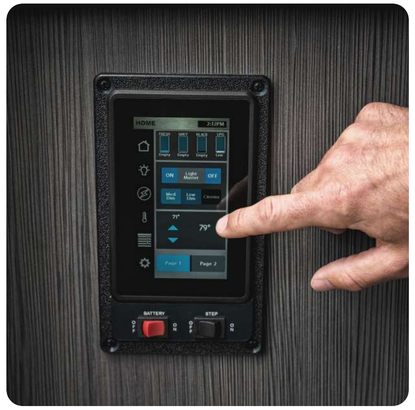
Why You'll **Love It**

If you love tailgating, taking a group of friends to a concert, or cruising the backroads on a tour through wine country, the Interstate 24GL is made for you.

Belted seating positions for up to nine people means you can bring along a crowd. Onboard amenities like a bathroom, kitchen, and two smart flatscreen TVs mean everyone is comfortable and entertained.

A large fridge lets you bring along everything you need to prepare healthy snacks (or game-day favorites).

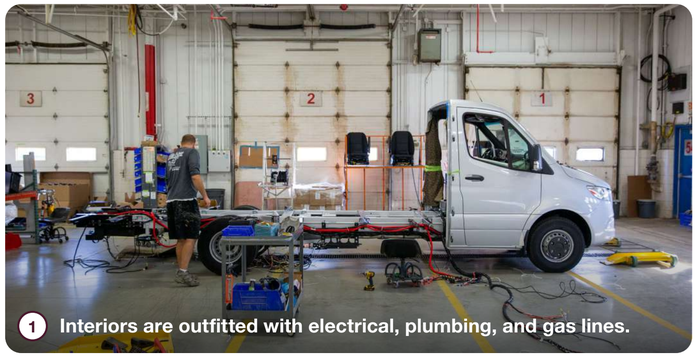
The new standard Advanced Power System gives you the power you need—whether you're camping off the grid or pre-gaming in the parking lot.



How It's Made

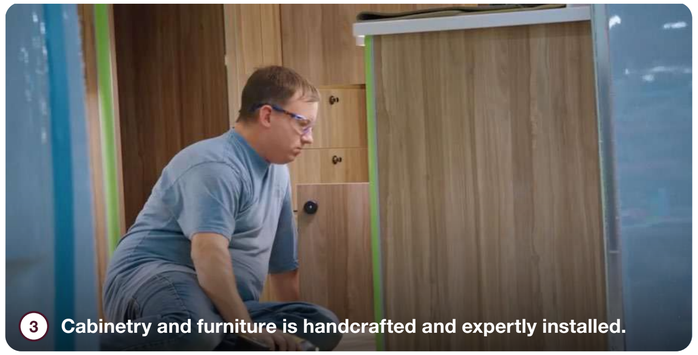
Each Mercedes-Benz cab chassis arrives in Jackson Center fully loaded with safety and security features and one of the most powerful and dependable engines under the hood. Our expert craftspeople hand-build the exterior walls and roof in-house while undercarriage features like generators, holding tanks, and batteries are installed. Standard seats are removed and re-upholstered with plush Ultraleather, while the interior is outfitted with electrical wiring harnesses, plumbing, gas lines, and comfort systems. We handcraft every cabinet and storage locker in our woodshop, which are then installed along with the shower, seating, and galley appliances. Extensive paint and fiberglass bodywork complete the exterior. And like every Airstream product, Atlas is put through an extensive water check to ensure there are no leaks before quality inspection teams test every component, system, and function before it goes out the door to a customer.

Schedule a factory tour

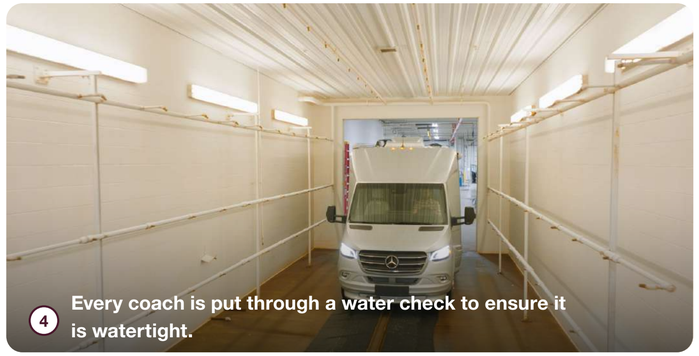


1 Interiors are outfitted with electrical, plumbing, and gas lines.

2 Seating is upholstered in-house with Ultraleather fabric.



3 Cabinetry and furniture is handcrafted and expertly installed.



4 Every coach is put through a water check to ensure it is watertight.
