

AIRSTREAM® Interstate 19GT

2027 TOURING COACHES

A Winning Combination **of Luxury and Efficiency**

Interstate 19GT is our smallest, nimblest touring coach yet. At 19 feet, it's only slightly longer than the average SUV on the road. That means easy parking and maneuvering to just about any location. With 10.3 kWh of lithium power, this innovative system fuels your appliances, outlets, and induction cooktop—so you can enjoy off-grid comfort without sacrificing the everyday conveniences.

For pro pickleball player Tyson McGuffin, little things make all the difference. He practices his serve, volley, and groundstroke hundreds of times in preparation for each match. He lifts weights, targets endurance, and zones in on the mental game, so that he can rally when he needs to.

Off the court, having familiar snacks and meals on-hand, being able to park close to the venue, and knowing he can rely on comfortable A/C, help Tyson to perform better and recover quicker.

Tyson's quest to be the best pickleball player in the league is a family affair. His wife, Meg, and their four children, are always there to cheer him on. This journey wouldn't be possible without his team. And the Interstate 19GT makes the whole team comfortable.

Game Time?
Let's Roll!

Tyson, Meg, and the kids are often up early and eager for their routine of pickleball practice, healthy meals, and a decent dose of fun.

And when it’s game time, Tyson knows he can count on the family to keep him balanced, focused, and feeling strong. Pickleball tournaments involve long hours in the sun, and having a homebase like the Interstate 19GT is a relief both mentally and physically. Tyson relies on his van to keep his recovery devices, supplements, and protein drinks close-by.

It’s an escape from the chaos

that comes with pickleball play in particular, and life in general. In the Interstate 19GT, Tyson has everything he needs close at hand. Supplements and fresh fruit in the fridge. Space to store training gear. Comfortable seating to recuperate on after a grueling match. And a flatscreen TV to review game video and prepare for the next one.

After a full day of performing, followed by signing autographs and meeting with fans, the Interstate is a home away from home for Tyson, no matter where he goes.

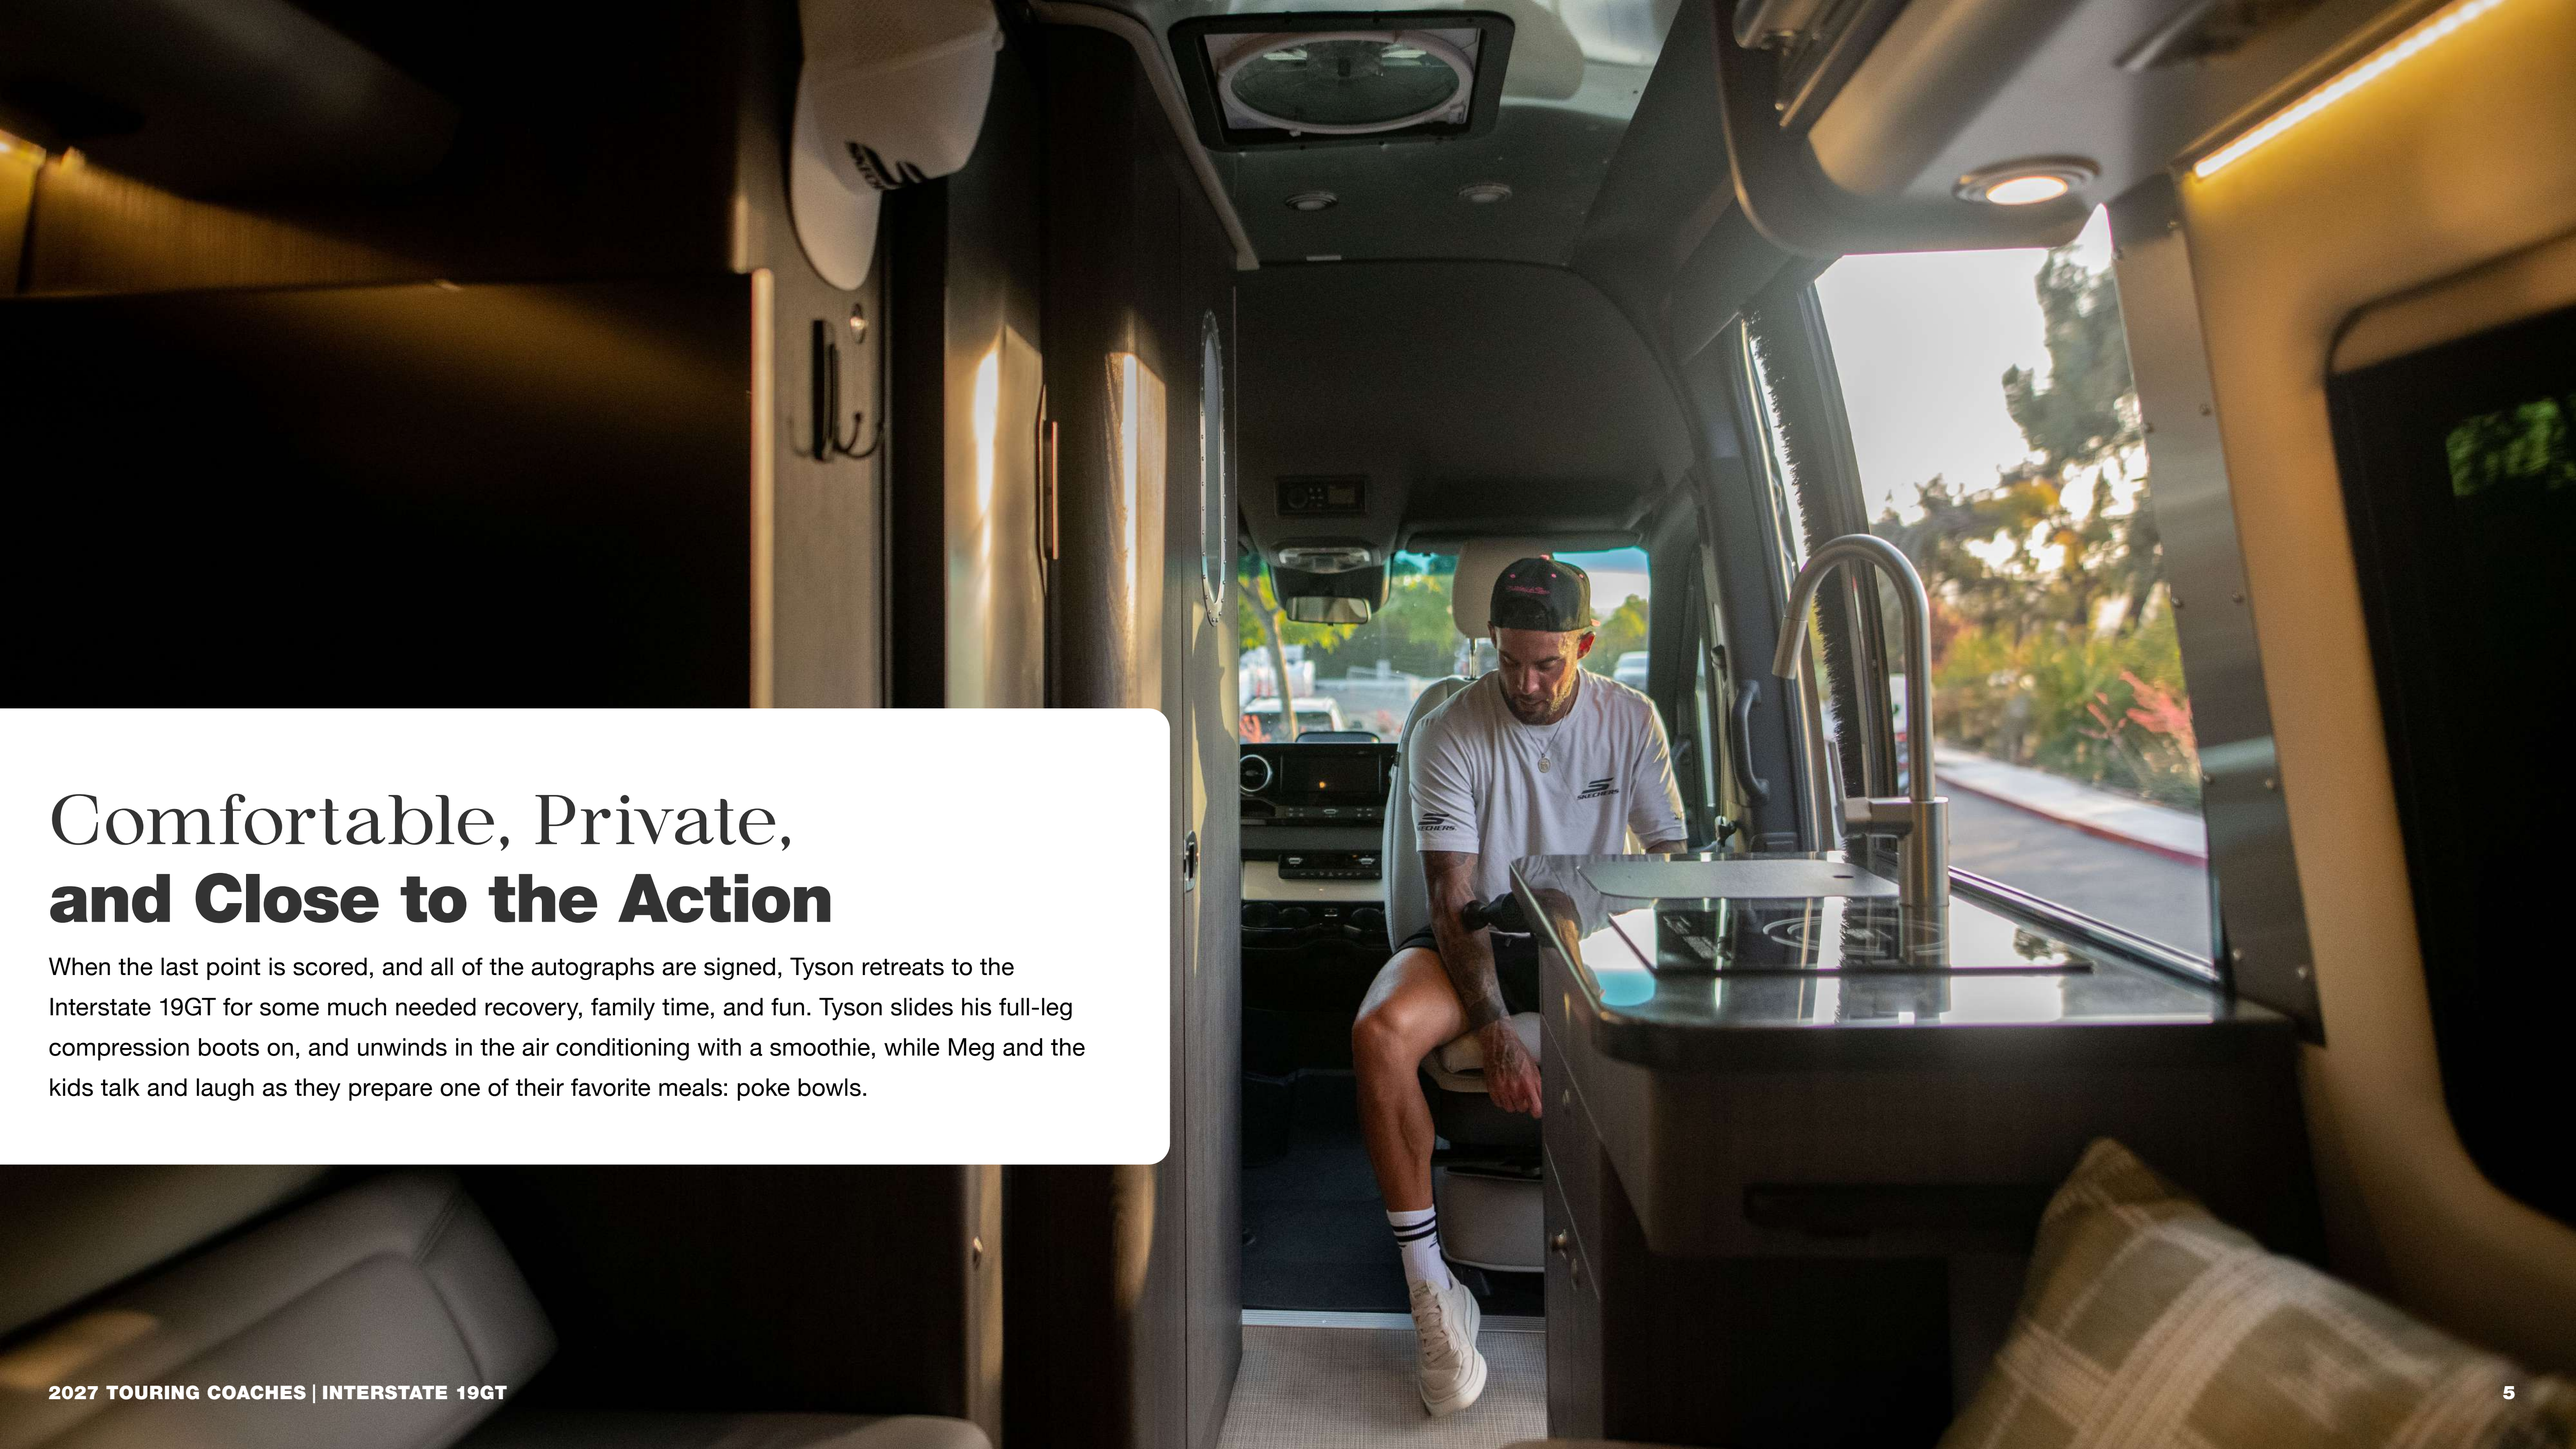

> “It’s just the consistency of being able to come back to the touring coach and sit in a space that's super comfortable,”
>
> **TYSON McGUFFIN**
> Pro Pickleball Player

When it **hits just right**

everyone feels it. The whole family celebrates when Tyson wins. And they celebrate a lot. But the rewards come in other ways, too. Not only is Tyson's tournament schedule (and the stands) packed, he also teaches, coaches, and makes all kinds of public appearances with sponsors and brands. Helping others is an even better win in his book.

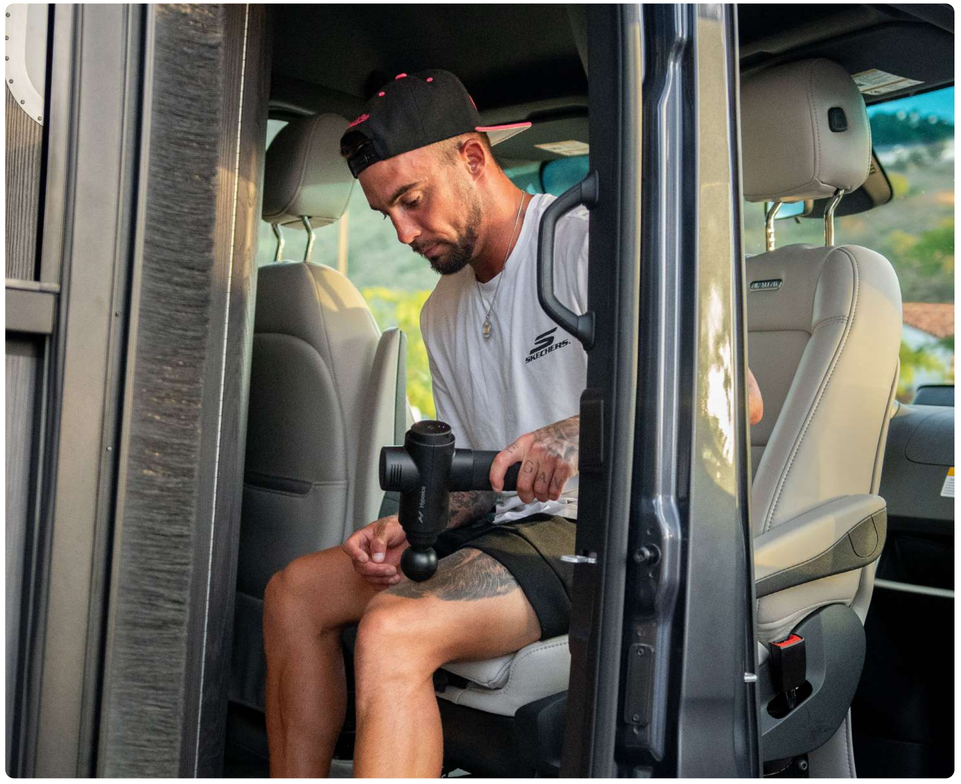

Comfortable, Private, **and Close to the Action**

When the last point is scored, and all of the autographs are signed, Tyson retreats to the Interstate 19GT for some much needed recovery, family time, and fun. Tyson slides his full-leg compression boots on, and unwinds in the air conditioning with a smoothie, while Meg and the kids talk and laugh as they prepare one of their favorite meals: poke bowls.

Unmatched **Competition**

Pickleball requires strength, but also precision. It’s as much about stamina as it is about grace and skill. The same is true for the Interstate 19GT. With ample storage in overhead lockers and cabinetry, you can bring along all of your gear and necessities. And every detail is thought of and put into practice, so that you can stay organized and ready to go.

Go Farther and **Stay Longer**

The 2027 Interstate 19GT's standard Advanced Power System gives you the freedom to camp at the mountains, the beach, or courtside. Designed for comfort and connection, it delivers reliable, renewable power every time you hit the road.

Details:

- 10.3 kWh Lithium Battery
- 240 W Solar Power
- 3,000 W Inverter
- Single Fuel Source Heating and Hot Water
- All-Electric Appliances

UPGRADE YOUR POWER

Advanced Power Plus

For extended trips and off-grid stays, the optional Advanced Power Plus upgrade boosts battery capacity to 17.2 kWh. Installed by your dealer, it supports multi-night use and more energy-intensive needs.

The Comforts of Home, **Anywhere**

From cross-country treks, to weekend escapes, the Interstate 19GT is packed with features that make it stress-free and fun. It starts with the foundation of a Mercedes-Benz® Sprinter 2500 van chassis, and adds best-in-class features as standard, not upgrades. You can control the shades, interior lighting, the outdoor powered awning, and air conditioning with one touch on the touchscreen. The European-style wet bath in the Interstate 19GT neatly houses a sink, shower, and toilet – everything you need to feel clean and energized on the road.

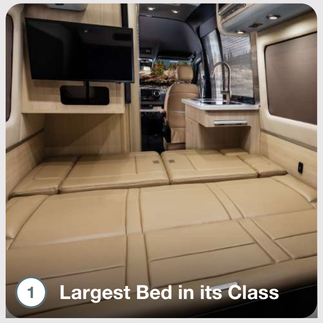

> “Having it be accessible at tournaments – having it be right in the parking lot... it's a place that I can come back to either before matches or after matches... it feels like home."
>
> – **TYSON McGUFFIN**

Interior
Features

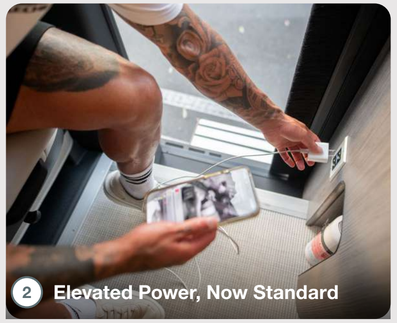

Interstate 19GT's thoughtful design delivers everything you need for exceptional travel experiences. You feel it in the surfaces, the fabric choices, and the clever use of space. Its plush Ultraleather seating and marine-grade vinyl flooring are durable and easy-to-clean. Spacious overhead storage lockers keep things secure in transit and close at hand when you need it. And at the push of a button, the sofa converts to a wide sleeping area so you can wake up ready to tackle the next hike, the next match, or the next day on the water.

Explore More Interstate 19GT Features

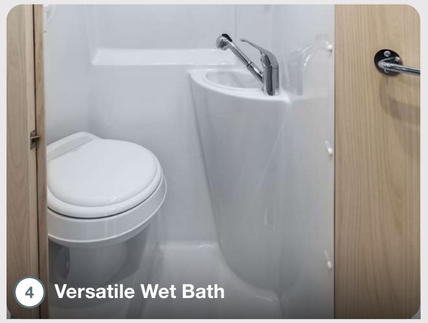

Push-button sofa conversion for ultimate relaxation

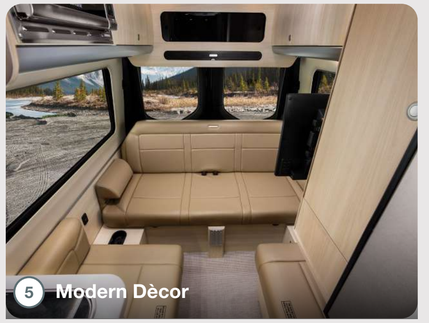

Powerful off-grid energy independence for more versatile travel

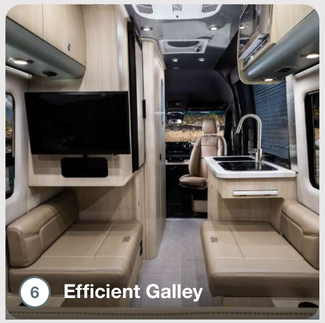

Control shades, A/C, lighting and monitor tanks and power levels

European-style wet bath neatly organizes everything in one space

Choose from four dècor packages to match your style

Induction cooktop, large sink, and plenty of counter space

Interior Décor

> “It feels so modern, with a bright-airy interior that seems much larger than just 19 feet.”

Floor Plan

The Interstate 19GT is one of Airstream's most compact and luxurious motorized models. The powerful Mercedes-Benz® turbo diesel engine makes the Interstate 19GT driving experience so enjoyable – with powerful getup balanced with impressive fuel economy. And with the standard Advanced Power System, you can run the A/C, appliances, and power your life even when far from a traditional campsite.

Exterior
Features

Built on the powerful performance of the legendary Mercedes-Benz Sprinter van chassis, the Interstate 19GT is packed with exterior features that prioritize entertaining, camping, and enjoying the outdoors. The sliding door automatically opens, and a powered step extends for easy entrance. With the new Advanced Power System, roof-mounted solar panels, and upgraded components, you'll have all the power you need to confidently take on the road ahead.

1 240 watts of solar panels on the roof harvest the free, abundant power of the sun.

2 The powered awning extends and retracts at the push of a button.

3 The standard Advanced Power Package combines a powerful battery system with a convenient single-fuel-source heating and hot water system.

4 Refined new grille adds subtle sophistication to familiar Airstream styling.

5 Safety sensors positioned around the exterior of the coach give you comprehensive situational awareness.

6 Fox 2.5 Performance Elite shocks keep handling sharp and the ride smooth, even with a full load.

LEARN MORE

How It's Made

Each Mercedes-Benz cab chassis arrives in Jackson Center fully loaded with safety and security features and one of the most powerful and dependable engines under the hood. Our expert craftspeople hand-build the exterior walls and roof in-house while undercarriage features like generators, holding tanks, and batteries are installed. Standard seats are removed and re-upholstered with plush Ultraleather, while the interior is outfitted with electrical wiring harnesses, plumbing, gas lines, and comfort systems. We handcraft every cabinet and storage locker in our woodshop, which are then installed along with the shower, seating, and galley appliances. Extensive paint and fiberglass bodywork complete the exterior. And like every Airstream product, Atlas is put through an extensive water check to ensure there are no leaks before quality inspection teams test every component, system, and function before it goes out the door to a customer.

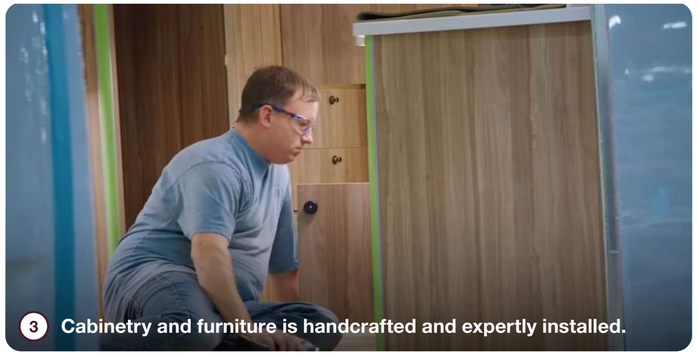

Schedule a factory tour

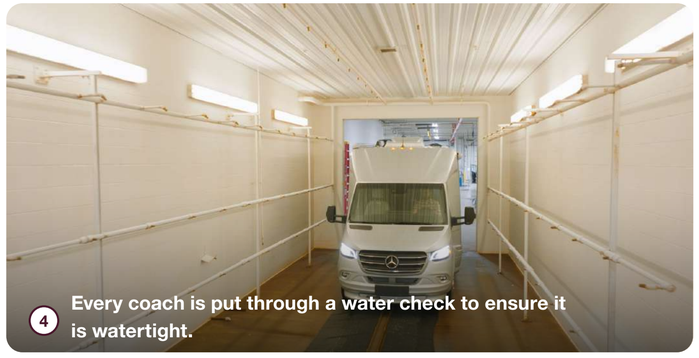

1 Interiors are outfitted with electrical, plumbing, and gas lines.

2 Seating is upholstered in-house with Ultraleather fabric.

3 Cabinetry and furniture is handcrafted and expertly installed.

4 Every coach is put through a water check to ensure it is watertight.
