

AIRSTREAM® Interstate 19X

2027 TOURING COACHES

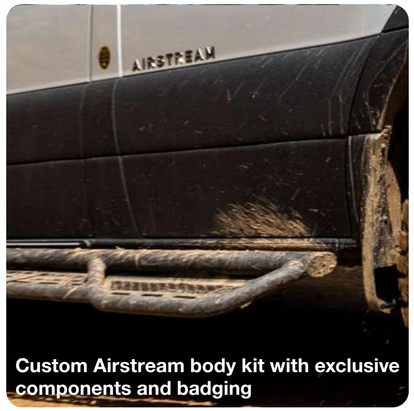

Durable, edgy, Scarlet Peak décor with wood accents

Rugged styling with a protective coating around the front, hood, rear and sides

Custom Airstream body kit with exclusive components and badging

About
Interstate 19X

Built on the 19-foot Mercedes-Benz® Sprinter van chassis and equipped with standard all-wheel drive, the Interstate 19X is designed for outdoor and off-road enthusiasts who want to explore farther while enjoying the comforts of home. With iconic Airstream design, premium craftsmanship, and a rugged stance, the 19X delivers extreme comfort, advanced amenities, and best-in-class safety and performance.

Compact yet highly capable, this Class B adventure van is equally at home on highways, dirt roads, or in the heart of a national park. From daily driviang to boondocking off-grid, the 19X offers the versatility to handle it all—thanks to a smart floor plan, flexible storage, and a maneuverable footprint that fits nearly anywhere.

Powering your journey is the all-new, standard Advanced Power Package, engineered for off-grid performance. With enhanced lithium battery capacity, solar integration, and powerful energy management, it lets you stay off the grid longer—without giving up the comforts that make travel truly enjoyable.

Floor Plan

After a day of outdoor adventures, return to the comfort and luxury of the Interstate 19X so you can rest and recharge for whatever adventures come tomorrow. Enjoy a complete wet bath with shower, a fully equipped galley with plenty of prep space, and a spacious convertible sleeping/living/dining area that can be set in multiple configurations to suit your needs. The lithium battery power and upgraded inverter provide the needed energy for off-grid adventures that maintain the comforts of home. Even far from shore power hookups, the Interstate 19X can run the air conditioner for ultimate comfort and relaxation.

Exterior
Features

The Interstate 19X comes standard with AWD capability, enabling adventurers to get closer to nature, tackle challenging terrain, and ensure peace of mind even in the most remote locations. The exterior is not only ruggedly stylish but also built to withstand the rigors of heading off pavement. The protective coating on the lower body and front hood protects against road debris and scratches, while a Tenzing brush guard with integrated lights offers even more style while traveling off-road.

1 Matte black running boards allow for easy entrance.

2 All Wheel Drive power train combined with Fox 2.5 Performance Elite Series shocks allow you to travel boldly.

3 Tenzing Brush guard with integrated LED lights provide rugged protection and illumination

4 Black wheels with All-Terrain tires are equipped to get you there safely and in style.

5 Powered armless patio awning extends with push-button ease.

6 240 Watts of solar keep your systems recharging and topped off.

** Typical tow capacity will vary and is dependent upon build spec and intended vehicle loading with people, cargo, and fluids.
*** New Vehicle Limited Warranty. Individual components may vary. See Owners Manual for specific warranty coverage and information.
**** Weights are approximate. See Vehicle Sticker for specific vehicle information.

Why You'll **Love It**

With clever storage throughout, Interstate 19X has plenty of room to bring along travel necessities and all the gear your adventure requires. The spacious rear area offers room for paddleboards, bikes, or other large gear, with an L-track storage system on the floors, walls, and ceiling to securely stowe your gear.

Hit the road to big adventures in a small-footprint design that maximizes use of space.

And with the Adanced Power System you have even more off-grid capability, with larger batteries and a single-fuel-source heating and hot water system that draws fuel from the vehicle's tank.

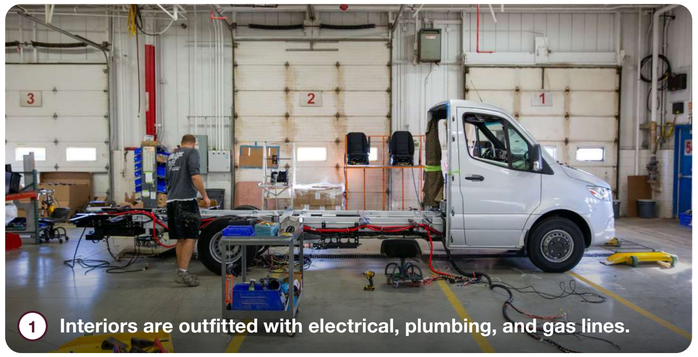

How It's Made

Each Mercedes-Benz cab chassis arrives in Jackson Center fully loaded with safety and security features and one of the most powerful and dependable engines under the hood. Our expert craftspeople hand-build the exterior walls and roof in-house while undercarriage features like generators, holding tanks, and batteries are installed. Standard seats are removed and re-upholstered with plush Ultraleather, while the interior is outfitted with electrical wiring harnesses, plumbing, gas lines, and comfort systems. We handcraft every cabinet and storage locker in our woodshop, which are then installed along with the shower, seating, and galley appliances. Extensive paint and fiberglass bodywork complete the exterior. And like every Airstream product, Atlas is put through an extensive water check to ensure there are no leaks before quality inspection teams test every component, system, and function before it goes out the door to a customer.

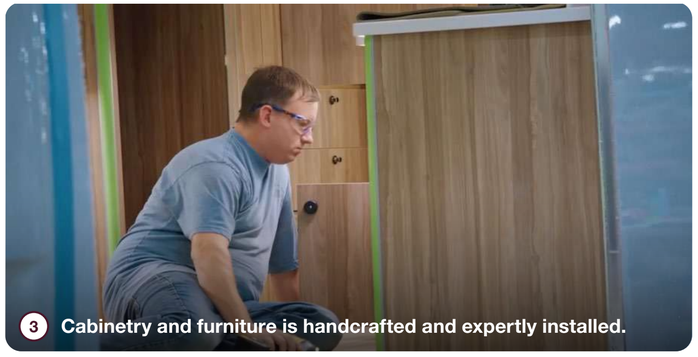

Schedule a factory tour

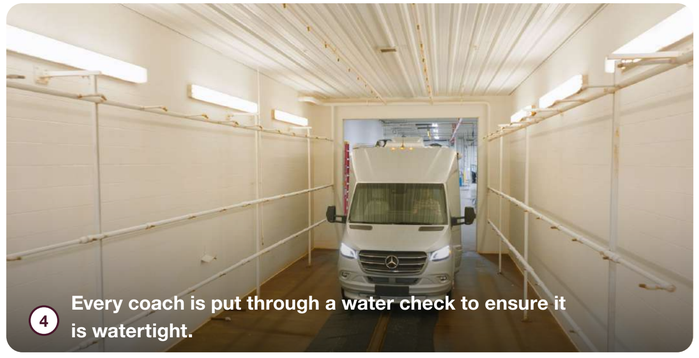

1 Interiors are outfitted with electrical, plumbing, and gas lines.

2 Seating is upholstered in-house with Ultraleather fabric.

3 Cabinetry and furniture is handcrafted and expertly installed.

4 Every coach is put through a water check to ensure it is watertight.
